The meeting opened at 7:45 p.m. with President Harry Garba presiding. The minutes of the last meeting were read and approved. The secretary read a letter from ARRL concerning the issuance of certificates to those participating in field day. Minutes of Meeting August 25, 1952

The meeting opened at 7:45 p.m. with President Harry Garba presiding. The minutes of the last meeting were read and approved. After the treasurer's report, the secretary read a letter from ARRL concerning docket 10237. The docket concerns the setting aside of at least one, and in some cases two, small segments of each band for exclusive use as calling and answering frequencies. A vigorous discussion followed, with the members for the most part opposed to the proposal. It was informally decided to supply letters or stationery to the members for the purpose of registering individual comment with ARRL. Final date for comment is September 19.

Glenn Rogers handed out four CD identification cards. The applications of those members whose cards were not given out were not completed correctly. Noises were made about code classes for the fall, and it looks like this will be getting under way shortly. A code practice oscillator is available. A discussion followed on the advisability of club purchase of gear for 147.3 mc/s RACES work. No action was taken. the problem of foreign phone and amateur phone on the upper part of the 7 mc.s band was discussed. The members got some hot air off their chest, but since no concrete action could be taken to remove the foreign phones, none was. Mike Murphy reported on the progress of the club QSL design. The door prize—two 600 volt dry electrolyties—was drawn for, and the treasurer won. Ways and means for organizing and publicizing the code classes for this fall were discussed. No action was taken.

The president read the list of training films available from ARRL, and mentioned that he had ordered one for the next meeting. It is intended to show these films, both movies and slides, at as many meetings as possible. The list of subjects is sizable, and with other sources of movies, the meetings should be well baited for some time.

John Hawks donated a mimeograph machine to the club, and Norm White contributed four 1625's for use in an ARC-4 which the club has. The meeting was adjourned at 9:30 p.m.
